The basic training for every ski tourer and freerider

Avalanche course in Engadin St. Moritz

The basic training for every ski tourer and freerider

PROGRAM

AVALANCHE COURSE IN ENGADINE / ST. MORITZ

Get fit for the winter and leave your tracks safely outside of the slopes! Downhill runs and tours outside secured pistes are increasingly fascinating for skiers and snowboarders. For safe powder fun, it is necessary to have basic knowledge and know how to take precautions in the terrain. Whether you are a beginner or an independent tour goer, in our courses you will find the right training issues for every level; be it in the handling of search equipment, probe and shovel, the interpretation of the avalanche bulletin or a complete planning.

Purpose of the course

Proper off piste behaviour and mastery of the avalanche transceiver, the probe and the right shovel technique are elementary.

This course is intended for those who want to move safely outside of the slopes in future. After a theoretical introduction to the basic knowledge, we implement what we have learned in the terrain. Avalanche prevention is paramount.
