## *PROGRAM*

### **CANYONING VAL BODENGO 3**

We meet in Gordona. Independently, everyone will then ride the 7 kilometers to Val Bodengo, where we will gather the material and you will be explained the most important points. Route 3 is the most challenging in the canyon and only for experienced and skilled canyoneers. On our tour we only cover a part of the whole route and are therefore on the road for a little less time. But still a total of 4-5 hours.

Waterfall to a maximum of 60 meters, jumps and slides at different heights.

Jumps are never mandatory, you can also go down with the rope.
