DAY 1

VIA THE "DENTE NORTHEAST" TO THE FIAMMA AND UP ON IT!

The imposing granite needle on the Spazzacaldeira is the landmark of the Bergell.

Access: With the cable car Pranzaira we go up to the Albigna dam. In about 10 minutes we get to the entrance of the Dente Northeast.

Now the climbing begins: over 10 pitches in III and IV degrees we reach the foot of the rock needle of Fiamma. This starts at a panel on the southwest side of the Fiamma. The last pitch to the top is a 5c route. Now it's just a matter of "enjoying the view!"

Descent: abseiling via the normal ascent.
