

Ice Climbing Technique Course Pontresina

The fascination of ice - combining alpine climbing and mountaineering.

Ice Climbing Technique Course Pontresina

The fascination of ice - combining alpine climbing and mountaineering.

PROGRAM

ICE CLIMBING TECHNIQUE COURSE

It couldn't be more crazy. Ice-covered rock walls and frozen waterfalls not only look impressive - they also will be climbed from all positions! Every winter, mighty ice walls with imposing icicles are created in the Engadine for varied routes.

From securing to movement technique, our professionals will show you what to look out for in this special discipline. We discover ice formations with inclinations between 40° and 90° and acquire a feeling for the frozen element.

Step by step, our mountain guides will teach you the techniques of ice climbing from the ground up. Top Rope secured you will make your first vertical meters in the gorge of Pontresina or at various icefalls in Silvaplana.
