Ideal as a preparation tour for further highlights in rock and ice

DAY 2

CROSSING OF PIZ CAMBRENA AND PIZ D'ARLAS

In the morning we take the hiking trail past the Piz Trovat to the Persgletscher. Now with crampons and a rope we climb over the ice ridge up to Piz Cambrena. Here we already practice walking in the steep snowy terrain and learn the appropriate safety techniques. The descent leads us over the Piz d'Arlas. The rock ridge is the ideal terrain for rock technique exercises. After an intensive training day we are ready for the next highlights.
