

Avalanche course Flims Laax Falera

The basic training for every ski tourer, splitboarder and freerider

Avalanche course Flims Laax Falera

The basic training for every ski tourer, splitboarder and freerider

PROGRAM

AVALANCHE COURSE IN FLIMS LAAX FALERA

Get ready for winter and leave your tracks safely off the slopes! Downhill runs and tours outside secured pistes are increasingly fascinating for skiers and snowboarders. For safe powder fun, it is necessary to have basic knowledge and know how to take precautions in the terrain. Whether you are a beginner or an independent touring skier/splitboarder, everyone benefits from our courses. The training focuses on; the use of search devices, sounding rod and shovel, the interpretation of the avalanche bulletin and also the ideal ascent and descent technique.

Course goal:

Proper off piste behaviour and mastery of the avalanche transceiver, the probe and the right shovel technique are elementary.

This course is intended for those who want to move safely outside of the slopes in future. After a theoretical introduction to the basic knowledge, we implement what we have learned in the terrain. Avalanche prevention is in the focus.
